

Share your experience

Sharing stories and experiences can help people feel less alone, promote awareness and understanding and bring us together in shared experiences.

ESAM would like to start a Purple Day campaign where we share your stories, how epilepsy has impacted your life, what you want people to know, to understand and to learn about epilepsy.

In the month of March, we will share these on our social media and on our website.

If you are interested in sharing, or for more information, please contact Sara at esam@manitobaepilepsy.org or 204-783-0466
